

# White Elephant Session

White Elephant Session is a very popular session organized every year at ACRS.

Here, “white elephants” are unselfish, well-known professors/scientists of academic societies who are willing to share their expertise and experiences with the younger generation. This session is a best practice for students and young scientists to learn how to become good scientists.

October 27, 2025

Room A/Maroa

15:30-17:00
